

Air Conditioning

Our air conditioning department specialise in ducted air conditioning installations, both domestic and commercial. With no job too big or too small. We can provide designs, engineering plans, project management, service & install any project. Even design of mechanical ventilation etc.

You do not get leading manufactures such as Daikin, Eclipse, Fujitsu, Haier, Panasonic, Samsung & Sharp join our company unless you know what you are doing. Technology has changed so much in Air Conditioning in the past couple of years do yourself a favour & see what is available by talking to our trained team, or call for a no obligation free quote.

If you have an existing home and would like to know about any of the many different systems that are available, ie, split systems, ducted, in ceiling, VRV, bulkheads or underfloor heating and cooling let us put together a free quote for you.

Our team of local Wollongong people, can assist with sales, service & installation.

We service what we sell for your peace of mind, why not get a free quote from our team.
