

Speakers

Mac Smart Home Centre specialises in all your speaker needs. Whether it's floorstanding, subwoofers, outdoor or complete speaker systems we have what you need.

Floorstanding

Floorstanding Speakers come in a wide variety of sizes and styles, this is because everyone perceives sound differently. The final choice in a Floorstanding speaker can come down to a number of factors; the size and type of room, styling of speakers, power requirements, and of course the performance of the speaker. We can give advice on all of these factors so that the speakers you purchase from Mac Hi Fi will last you for a very long time.

In Ceiling/Wall

In ceiling / In wall speakers can be used in a variety of situations from multi room speakers in other room or as a complete home theatre system, once again there are many to choose from motorized, different sizes and shapes, power requirements and quality we can help make the choice easy for you.

Outdoor/Garden

Outdoor and garden speakers we have a full range for all requirements from water proof to rock speakers to give you sound in your out door areas a must for entertainment or for enjoyment relaxing on your balcony or backyard.

Speaker Systems

Speaker systems come in a variety of shapes sizes and quality adding a cleaner line to your home especially with flat screen TV's. The quality of the systems speakers varies from extremely high end but also includes many ranges available for the budget minded. These types of systems are the fastest growing in the industry and the staff here will help you make the appropriate decision.
